## Woods Cross, Utah Pest Control and Extermination Services:

**Cockroach Pest Control:** Although some people only **notice cockroaches at night, they do come out during daytime hours**. The Centers for Disease Control and Prevention (CDC) explains that **roaches may trigger an allergic reaction, cause an asthma attack or carry poliomyelitis or salmonella**.

**Bedbugs Pest Control:** Bedbugs also usually **come out at night** and are not eradicated with store-bought extermination products. They **potentially cause health problems or carry and transmit diseases**, as demonstrated by results of multiple studies. Our professionals are able to effectively exterminate bedbugs and larvae at all stages of their life cycle.

**Earwigs Pest Control:** Earwigs **inhabit kitchens, bathrooms, basements, sheds, and businesses where they can easily find a water source**. By Choosing Legacy Pest Control, we spray all points of entry to rid your property or business of earwigs.

**Ants Pest Control:** Ants do more than **seeking out crumbs or other food sources** in your kitchen. They **sometimes cause significant damage to wood**, resulting in expensive repair costs to address damage caused by ants. Our specialists work to exterminate various types of ants from your home or office.

**Termites Pest Control:** Termites potentially cause a great deal of **damage to homes and businesses**. They have

the capability to cause such extensive **damage to wood that it can be destroyed, making a property or business potentially unsafe**. Our Legacy Pest Control professionals conduct an inspection, assess the extent of the infestation, resolve the termite infestation and if necessary, provide advice on necessary repairs from termite damage.

**Spiders Pest Control:** Spiders likely frighten many individuals, even though many types of spiders are not dangerous. However, they do have the capability to **invade your home, basement, garage and business spaces**. Like other types of pests, they can be quite a nuisance and a pest that requires professionals with the expertise to rid your home or business of the spiders. Safe, effective products used by our Legacy Pest Control experts rid your home or commercial space of bothersome spiders.

**Silverfish Pest Control:** Silverfish prefer a **diet of carbohydrates and like to live in damp areas**. When you first discover silverfish at home or work, relying on Legacy Pest Control professionals who have the expertise to use family friendly, pet-friendly products helps prevent a silverfish infestation.

**Mosquitoes Pest Control:** Trusting Legacy Pest Control in Woods Cross to spray for mosquitoes helps protect loved ones and employees from the many dangers posed by mosquitoes. West **Nile and Zika viruses are just two examples of serious illnesses sometimes attributed to mosquitoes**. Controlling mosquitoes effectively requires professional measures such as the specialized expertise provided when you contact our extermination experts for controlling mosquitoes.

**Small Rodents Pest control:** Small rodents such as **mice, rats, bats, and squirrels** are more than an annoying nuisance. They actually **carry diseases that can make people and pets very ill**. Once we assess your small rodent problem, we implement an ideal plan to eliminate your rodent control issue and provide easy-to-understand insight and guidance on preventing future small rodent infestations.
